

Gov's Off - Public Empl Retirement Syst Administration

Description:

PERSI administers a Defined Benefit (DB) retirement plan mandatory for all eligible state and school district employees and for employees of political subdivisions which have elected to participate. The plan also provides separation, disability, death and survivor benefits. PERSI also administers the sick leave/medical insurance reserve for state and school retirees and the former Firemen's Retirement Fund.

As part of the GAIN SHARING Program adopted by the 2000 Legislature, PERSI established and administers a defined contribution (DC) retirement plan for 53,000 active members of PERSI. This is an entirely new plan, in addition to and separate from the DB plan, which provides a 401(k) plan option to all members who are eligible. The PERSI budget increases reflect the establishment of this new plan in FY 2001 and FY 2002. In years in which investment earning and total DB plan assets sufficiently exceed liabilities plus a one standard deviation reserve, the PERSI board may declare a portion of the excess earnings as gain sharing. When gain sharing is authorized, active members will receive their allocation in the form of a transfer into their DC account. Retirees will receive a 13th check. Employers will receive a credit against future contributions.

As a result of the gain sharing program and the new DC plan, some of the projections have been left blank pending the availability of new data and the possibility of revised performance standards.

Major Functions and Targeted Performance Standard(s) for Each Function:

1. Provide secure retirement benefits by collecting, maintaining and distributing retirement funds as specified by law.

Program Results and Effect:

PERSI administers a Defined Benefit (DB) retirement plan and, effective in 2001, a Defined Contribution (DC) plan providing secure, long-term retirement benefits for career public service employees. PERSI's members and beneficiaries receive direct benefits through retirement, disability, and death benefit programs.

Taxpayers benefit from PERSI programs because:

- 1) The DB plan helps to attract and retain public employees, creating a more stable workforce to provide needed public services more reliably.
- 2) PERSI's pooling of risks and benefits over a large employee/employer base provides economies of scale, as well as consistent professional management of assets and benefits.
- 3) The structure of the DB plans provides retirement benefits to career employees in a cost-effective manner. Gains from favorable investment results are returned to employers/employees in the form of stable contribution rates. Beginning in 2001, if approved by the PERSI board, excess gains will be distributed to employees, retirees and employers per Gain Sharing legislation.
- 4) The DB plans replace a portion of public employees' income after retirement. By providing guaranteed benefits, these plans help PERSI's retirees to be financially self-sufficient, and therefore, less likely to be dependent upon public welfare programs. The DC plan provides an additional and portable option for employees to build a secure retirement.

PERSI's Retirement Board, as well as the entire agency, exists for one reason: to service the interests of the system's beneficiaries. As fiduciaries, PERSI is entrusted to prudently and accurately collect, invest, maintain, and distribute retirement funds as specified by law.

Program Results and Effect:

The primary funding goal of PERSI is to maintain a well-funded system along with assuring stable contribution rates for employee and employer members, while granting annual Cost of Living Adjustments (COLAs) to retirees. In years with excess investment earnings, Gain Sharing may be declared by the PERSI board. Gain Sharing is then distributed to retirees, members and employers.

\$9,500,000	\$14,800,000	\$20,400,000	23,720,000
Projected Results			
2002	2003	2004	2005

Program Results and Effect:

The State 401K plan provides a voluntary retirement savings program to all State employees, who benefit from tax deferral, investment flexibility, and automatic payroll deductions. Taxpayers benefit by having a public workforce that is motivated to contribute toward their own retirement and plan for personal financial security.
